

"...everything we know is everything you taste"

The Mediterranean culinary journey created by our Chefs is reflected in an eclectic wine program. The wine list recognizes family-owned wineries and small producers who have chosen the path to sustainable, organic, biodynamic, and natural farming.

The journey takes you through the most influential wine regions of the Mediterranean, as well as some of the traditional wine regions of both the New World and the Old World.

You are invited to try native and rediscovered grape varieties that best represent each area, with respect to the "earth," spotlighting a few Library releases and Seasonal Features that add to the depth of the program while spicing up the wine experience.

"I feel it is my job as a winemaker not to make the wine, but rather to shepherd the fruit, to watch, smell, taste, and listen and in difficult years to guide it with a gentle and patient hand. I believe wine is made in the vineyard under the direction of nature; I merely try to interpret that expression."

A note from the "Wine Guy,"

We work closely with our Chefs to select wines that not only match our specific ingredients but have the elegance and versatility to match a wider variety of dishes while giving our guests the true essence of the wine, region, and country.

All of our wines are kept in a Vinotemp unit providing a subtle temperature between 50~65 °F for a properly insulated wine cellar. The humidity range of the refrigerated space is maintained within 50~75% RH.

We encourage our guests to bring their own wines; however, corkage is not offered Friday & Saturday Nights as well as on Holidays. We allow corkage Sunday thru Thursday for lunch and dinner and Friday lunch for \$45 for 2 bottles (750ml) maximum per table of any wine not already represented on our current wine list.
